11. Summary

**Mission and Plan**

To further the PP mission through the use of leaflets and printed matter in addition to small quantities of selected consumer goods, to be airdropped over Albania at intervals sufficiently frequent to keep alive the spirit of passive resistance and the hope of eventual liberation.

**Summary**

1. The one leaflet mission over Albania during the month of July took place on the night of 15 July. The aircraft encountered intense anti-aircraft fire over Tirana, which resulted in moderate internal damage to the right wing and stabilizer. No members of the crew were injured and the field reported that the crew's morale was not badly affected by the incident. Only a portion of the leaflet load was dropped over Albania. The second section of the flight was cancelled, not because of the damage to the aircraft but because it was feared that the forecasted strong northeasterly winds would carry leaflets over the Corfu area.

2. The material dropped consisted of the July issue of the Shekiperia digest. The digest contained the photograph and a statement by a recent young escapee, an appeal to the youth in the "voluntary" labor camps, a news summary and several short miscellaneous items.

3. TSE has advised that they have developed a dye which will successfully cover a message previously printed on cloth and which will wash out with soap and water, thus exposing the message. The printed message cannot be washed out even when a bleach is used. It is planned to mail lengths of the cloth with appropriate messages printed on it to selected Communists inside Albania.
